Assemble Series

haskell

ON TIME. COMPLETE. CORRECT.

Bring everyone to the table with the Assemble series for Haskell Office, this collection includes something for any interior, whether it's a conference room, classroom, media center, or café. With a host of surface and support options, the Assemble series easily fits into corporate, educational, and hospitality environments. Combining the ability to foster collaborative interaction while incorporating sleek, high-design, our selection of tables are ideal for those seeking beauty and function in any communal settings. With Haskell's focus on uncompromising customer service and manufacturing expertise, getting everyone together has never been so simple and worry-free.

conferencing and multi-purpose

The Assemble series offers all the components that make bringing together people and interiors easy. With its comprehensive collection of conference and multipurpose tables, combined with a variety of leg options and edge profiles, Assemble meets the needs of any environment.

HL Training Tables

HW Training Tables

Optional surface mounted grommets or power/data modules

Wheelchair & standing height available

Locking wire access door

Integrated vertical wire management

Two-level horizontal wire management to separate high & low power

Optional below surface power/data modules

Glides & casters available

Optional wire manager cove

HL & HW tables

Simplicity makes the HL and HW products stand out in the Assemble series. Integrated vertical and horizontal wire management, a key focal point, can accommodate power and data modules both above and below the work surface. Additional options like standing and wheelchair heights and casters for mobility make the HL and HW tables perfect for any training or classroom project.

Radiographic Positioning and Related Anatomy

training & learning environments

The extensive options built into the Assemble series make putting together any space, from a classroom, training room or media center, as easy as identifying the environment's needs. Electronic options range from a fully powered table with integrated cable management to a basic, quick-access cable management system. Depending on the demands of the space, our tables can be constructed with folding or nesting options.

Power Beam

Daisy Chain

Shown on a standard HW wire access training table. The 8-wire electrical system. Power Beam can be connected table to table using electrical jumpers. A plenum separates and manages low and high voltage wires. Groups of tables can be connected via a Power Beam through the wire access panel's removable end. Seated side receptacles are also available.

Shown on a standard HL training table. Eight surface power modules can be connected to another with the first module providing power from a standard wall receptacle. Eliminates the need for costly electrical installations.
