

Captiva Series Pedestals
Product Specification

General Description:

Haskell’s Captiva Series pedestals are strong durable solutions for all your pedestal needs. Pedestals are available in three depths: 18”, 22” and 28-7/8” as freestanding units with an attached metal top, cushion top or as a worksurface supported pedestal as a suspended pedestal, open top. All pedestals are constructed with the Haskell O-Frame® feature.

Features:

- All pedestals feature O-Frame® construction, and shipped fully assembled
- Adjustable leveling glides accommodate uneven floor surfaces.
- Heavy Duty Dual Wheel Casters are on all mobile units
- File drawers are high-sided to accept hanging folders.
- All Haskell product meets and exceeds all ANSI/BIFMA Standards for Metal Furniture
- Suspensions are steel ball bearing, full progressive and file drawer suspensions
- Suspension is "snap-in" with safety catches to prevent accidental drawer removal
- Captiva files feature full-width integral pulls and fully finished on all exposed sides
- All Haskell Products that lock come with a set of (2) two keys and are keyed separately
- All units have removable core locks for easy reconfiguration on site.
- Files are available in a variety of powdercoat paints which allow for an easy to clean finish
- All Haskell Products are low VOC and meet ANSI/BIFMA X7.1 low emitting VOC standards
