

**Captiva Series**  
**TOWERS**  
Product Specifications

**I. General Description:**

Haskell Towers are the perfect storage solution for today's office. Haskell Towers provide option for filing, storage and adjustable open storage for all of your office needs.

Each door is individually hinged with concealed hinges for a clean look and ease of opening.

Towers come in many various combinations of filing, storage, and bookcases

Haskell units are produced with the highest quality US Steel

**II. Features:**

- A. Full extension progressive, steel ball bearing suspensions with anti-rebound devices guaranteed strong, trouble free performance of drawers
- B. All cabinets have a reinforced case foundation with metal bottom to insure trouble-free performance. The reinforcement keeps the locking full length doors from becoming misaligned and the cases from racking during loading or during relocation.
- C. Adjustable leveling glides on the front and rear of the units are standard on storage cabinets, wardrobe units and open shelf units.
- D. Suspension is "snap-in" with safety catches to prevent accidental drawer removal
- E. All Haskell Products that lock come with a set of (2) two keys and are keyed separately
- F. Captiva Towers are fully finished on all exposed sides
- G. Towers are available in a variety of powdercoat paint finishes which allow for an easy to clean finish
- H. All units ship fully assembled .
- I. All Haskell Products are low VOC and meet ANSI/BIFMA X7.1 low emitting VOC standards

**III. Gauges of Steel:**

- |    |                 |    |                                |
|----|-----------------|----|--------------------------------|
| A. | Top: 18 gauge   | E. | Bottom Panel: 18 gauge         |
