## SIT TO STAND STUDENT AND TEACHERS DESKS

Haskell's unique sit to stand student desk is the right choice for today's active learning classroom. Our 20 year warranty on the height adjustable column insures years of uninterrupted use in the classroom promoting a healthier learning environment while fostering greater student engagement.

## TOOLS FOR STUDENT CENTERED LEARNING

Dynamic height range of 28 1/4" to 42" engages grade levels from elementary to secondary education. Supports both analog and digital tools. Casters allow for easy movement from classroom environment to extended learning spaces.

## SIT TO STAND TOOLS IN THE CLASSROOM

Our sit to stand, lecterns and teacher accessories for the front of the classroom offer sleek and agile designs that complement our education series. From pre-K to higher education, these mobile (and mounted) units pack plenty of functionality into their small footprints. Students burn 15 - 25% more calories per week standing than sitting. Cognitive brain function improves increasing creativity, innovation and productivity. Standing has a powerful impact on heart function and circulation. Students standing are more engaged. Students are happier when they can move more especially those with excess energy.

## TECHNOLOGY THAT WORKS

While many sit to stand desks bounce and are springy (causing the product to wear down after just a few years), our Hydraulic SureLock Construction prevents bounce and slippage of the height adjustment. And, our Unibody integrated construction at the surface mount provides greater strength and stability.

### OVERALL DIMENSIONS

- Dynamic Height Range: 28 1/4" to 42"

### WARRANTY

- Haskell Limited Lifetime Warranty
